

E1KaD Reports

Thank you for downloading our report bundle. I hope you get a lot out of the information.

Actually there are multiple opportunities for profit here.

One, learn from the information and build your business.

Second, and perhaps the quickest way to profit, is to give these reports away.

But first, you need to brand them with your affiliate link. You see, inside each report are multiple links to our products, and if you join our affiliate program, then brand the reports you're going to give away with your affiliate ID, you'll get paid when someone purchases something from us.

But it gets better. Not only will you get paid if they purchase that first product, but also with other products they purchase later, even if it isn't linked from inside the report.

That's just the way our affiliate platform works.

So sign up as an affiliate here:

<http://www.e1kad.com/affiliates.html>

You'll receive an affiliate ID, don't lose it (don't worry, you can easily retrieve it later), but you'll need it.

Now open up any of the .exe files inside the RebrandableReports folder, it will ask you for your Nanacast affiliate ID, just paste it in, click on next, tell it where to save the resulting PDF file, and that's all there is to it.

Then distribute that PDF anywhere you want, even file sharing sites. Everyone who picks it up will potentially earn you commissions for life.

Brand them all if you like, give them all away as a bundle if you like. Just don't use illegal or unethical methods to distribute them, such as unsolicited emails (spam).

You can even use them to build your own email list.

Good luck, we look forward to sending big affiliate commission payments your way.

Dennis and Rachel.
